School Students visited RIVER campus on 04.01.2019

One hundred and thirty six Class IX students from Sinnatha Government Girls Higher Secondary School, Muthialpet, Puducherry along with Six Teachers visited serene RIVER campus on 04.01.2019 (Friday). The visit was arranged as part of the educational activity under the collaboration between the Department of School Education, Government of Puducherry and RIVER. The students and the teachers spent the whole day at RIVER visiting the various sections of the Institute. The students were explained the importance of Veterinary Science by the faculty members of the Institute. The students and the Teachers thoroughly enjoyed the visit as it was loaded with very useful information. At the end of the tour, many students expressed the view that they came to know the Veterinary Institute only after the visit and expressed keen interest to pursue higher studies in Veterinary Science. Dr. R. Kumar, Professor, Department of Veterinary Pathology, RIVER co-ordinated the visit of the students to the campus.
